Richfield, UT 84701

Dear Mr. Barney:

Your notice to conduct mining related operations on your claim, Plume #1, (UMC 297914), in T. 23 S., R. 2 W., Section 23, has been received and accepted by this office. Your notice has been assigned a new case file number, UT056-90-7N, and the old case file, UT058-89-7N, has been closed. You are requested to reference this new number in any future correspondence about this notice.

When you plan to reclaim the site, the following method is suggested:

1. Recontour to natural contour as much as possible.
2. Spread the saved topsoil over the site.
3. Reseed with hycrest and Ephraim crested wheatgrass at 10 pounds per acre, and yellow sweet clover at 2 pounds per acre. Cover the seed by dragging a harrow or similar device over it.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year, please advise this office of the status of your mining related activity on the anniversary date of your notice.

A copy of your notice will be forwarded to the Utah Division of Oil, Gas and Mining (DOGM); thus, you will not have to file this notice with DOGM. However, reclamation under this notice is required to conform to standards of the Utah Mined Land Reclamation Act. Also, all mining claimants and operators that plan to use, store, or divert water are required by Utah statute to notify the Utah Department of Water Resources at:

1636 West North Temple
Salt Lake City, Utah 84180-1203

As required by 43 CFT 3809 Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site.

A representative of the BLM would like to examine the material that you are mining on your mining claim. When you commence your operations, please contact Michael Jackson.

Acceptance of your notice will not now, nor in the future, serve as determination of the validity nor ownership of any mining claim included under your notice.

Thank you for submitting your notice. If you have any questions, please contact Doug Thurman or Michael Jackson at (801)896-8221.

Sincerely,

Area Manager
